USCIS Immigration Medical Exam (Form I-693) Policy

Effective Date: **November 15, 2026**

About the Exam

Advanced Family Medicine provides immigration medical examinations for Form I-693, Report of Immigration Medical Examination and Vaccination Record. Suleman Aziz, MD and Shaista Zaman, MD are USCIS-designated civil surgeons. Our staff speak Urdu, Hindi, Punjabi, Russian, and Ukrainian.

Fees

Item	Fee
Civil surgeon examination and Form I-693 completion	$300
Required laboratory tests (TB blood test, syphilis, gonorrhea, others required by CDC)	Billed separately by LabCorp (not by AFM). Questions about lab charges should go directly to LabCorp.
Vaccinations you are missing	Varies by vaccine; quoted at your visit
Chest X-ray (only if TB test is positive)	Billed by the imaging facility

- Payment for the examination is due at the time of service.
- **Insurance:** The immigration exam is required by USCIS and is not medically necessary, so many insurance plans do not cover it. Please check with your insurance before scheduling. We provide an itemized receipt that you may submit to your insurer; coverage is not guaranteed and you are responsible for the fee.
- **Before your exam, you will be asked to initial and sign the I-693 Patient Financial Acknowledgment and Agreement included at the end of this section.**
- Outside laboratories such as LabCorp are not part of AFM; if a lab bills you, please contact the laboratory directly.

What to Bring

- Valid, unexpired government-issued photo ID (passport preferred).
- Form I-693, current edition, downloaded from www.uscis.gov/i-693. Complete Part 1 only. **Do not sign the form until you are with the civil surgeon.**
- Your vaccination records, with English translations of any foreign-language records.
- If applicable: records of prior positive TB tests, chest X-rays, or TB treatment; proof of syphilis treatment; and summaries of treatment for significant psychiatric conditions or substance use.

Speeding Up Your Exam

You may send copies of your vaccination records at least 48 hours before your appointment for pre-screening. Please use the FollowMyHealth patient portal if you have access; regular email (afmadmin1@afmllc.us) is not encrypted.

Results and the Sealed Envelope

- Results are typically ready within 3–5 business days after all test results are received.
- You will receive the completed Form I-693 in a sealed envelope. **Do not open the envelope if you are filing by mail;** USCIS may reject a form whose envelope has been opened. If you file Form I-485 online,

follow USCIS instructions to open and upload the form and keep the original form and envelope until USCIS decides your case.

- USCIS requires Form I-693 to be filed with Form I-485 for most adjustment applicants. A Form I-693 is valid only while the application it was submitted with is pending; if that application is withdrawn or denied, a new exam is required. Please check current USCIS instructions.
- If a positive TB test or other finding requires referral or further evaluation, the form cannot be completed until that evaluation is done.

Privacy

Information from your exam is used to complete Form I-693 for USCIS and, when required, to report to public health authorities. See our Notice of Privacy Practices.
